

CPR/AED/First Aid Certification

Quincy Franklin Hancock Townships Fire and EMS Department is offering emergency lifesaving skills in CPR/AED/First Aid training accredited by the American Heart Association (AHA). We can arrange a class to suite your needs in both “Basic Life Support” (BLS) and “Heartsaver” certification.

Groups we encourage to participate:

Families	Church Groups
Businesses	Lifeguards/WSI
Civic Organizations	Babysitters
First Responders	Schools/Coaching staff
Bus Operators	Contractors

If your group requires initial instruction or recertification, classes are conducted at the two fire station locations, or a custom class may be arranged at your group’s location. For details, please contact us to arrange a class.
